Satya Karri, Ph.D. takes role as Director of Laboratory Services at ViVitro Labs

ViVitro Labs Inc. is very pleased to announce that Satya Karri, Ph.D. has accepted the role of Laboratory Director effective immediately.

With extensive experience in cardiovascular hemodynamic research Satya brings a wealth of biomedical and mechanical engineering knowledge. Satya received a Doctorate degree in Biomedical Engineering from Virginia Polytechnic Institute and State University and Masters in Mechanical Engineering from the University of Texas at Arlington. Satya has numerous publications in the area of advanced experimental hemodynamic and computational fluid dynamics of medical devices. Satya developed a state of the art flow diagnostics laboratory at James Madison University as a Post Doctoral Research Associate and previously spent five years as a graduate research assistant at the acclaimed AETHER – Advanced Experimental Thermofluid Engineering Research Lab in Blacksburg, VA.

“I am eager to take the role as Director of Laboratory Services. I am especially excited about creating a state of the art fluid dynamics laboratory with extensive flow visualization capability.” Satya Karri, Ph.D. Laboratory Director, ViVitro Labs.

“We are pleased to have attracted a candidate of Satya’s talent to ViVitro”, said David Mester, General Manager of ViVitro Labs. “With the hire of Satya, ViVitro Labs can offer extensive expertise for product development testing and regulatory submission in areas previously found only in the academic world. Now comprehensive cardiovascular device testing can be offered by a regulatory qualified source in a timely manner that understands your urgency and need for accuracy.”

About ViVitro Labs

ViVitro Labs Inc. offers industry leading cardiovascular device test equipment and laboratory testing for product development and regulatory submission, consulting and advanced engineering services.

Since 1984, ViVitro has been a trusted source of quality products and services that enable our clients to carry out world-class research, develop innovative products, and demonstrate regulatory compliance.

ViVitro Labs is dedicated to making a difference by meeting our clients' needs so they can focus on what matter most, the patient.
