DIGITAL MANOMETER

Product Codes: 06104

Precision, handheld, digital pressure reference manometer conveniently calibrates pressure transducers. Can be recalibrated in the field for zero, span, and linearity.

- Precision, handheld, digital pressure reference manometer conveniently calibrates pressure transducers. Can be recalibrated in the field for zero, span, and linearity.
- Accurate primary standards to calibrate devices locally
- 1 point or 5 point calibration options
- Engineering units - Inches of H₂O (select 4°C, 20°C, or 60°C), PSI, mm of Hg, inches of Hg, mBars, Bars, kPa, kg/cm², cm of H₂O and user selectable scaling
- Accuracy: ±0.05% FS
- Media Compatibility – DN: Non-isolated differential sensor for clean, dry, non-corrosive gases. GI & AI: Isolated Gauge or Absolute sensor for fluids compatible with 316L SS
